# PIBD Hands-on Master Class

January  
28th–29th, 2020

Shaare Zedek Medical Center – Jerusalem

This master class is a unique hands-on advanced training program in pediatric IBD at Shaare Zedek Medical Center, Jerusalem, led by Prof. Dan Turner. This rare opportunity consists of a full two-day educational program with hands-on PIBD training at an expert center. The program is focused on mastering practical skills involved in the management of PIBD and includes case-based practical workshops (including actors) and sessions on writing a research protocol, bedside bowel ultrasonography, MRE reading, coordinating a multidisciplinary PIBD center, introduction to REDCap and SPSS, endoscopic dilatations, transition and support programs.

#### The aims of the program are:

- To discuss practical and contemporary aspects of PIBD management through hands-on workshops
- To present a multidisciplinary approach to individualized care for optimizing patient care
- To develop skills in imaging and tools for research

#### Guest faculty:

**Prof. Richard Russell, The Royal Hospital for Children Glasgow**

#### 5D in PIBD

#### Experience PIBD with your 5 senses

This educational event, sponsored by Janssen Israel, is designed for pediatric gastroenterologists and advanced trainees with a special interest in IBD.

Details and registration: [tamaral@szmc.org.il](mailto:tamaral@szmc.org.il)

We look forward to welcoming you in Jerusalem!

Kind Regards,

**The Anne and Joe Turner Paediatric IBD Center, Shaare Zedek Medical Center, Jerusalem**

# PIBD Hands-on Master Class

January  
28th–29th, 2020

Shaare Zedek Medical Center – Jerusalem

## Tuesday (Jan 28th, 2020)

#### 08:30–09:00 Registration and light breakfast

- 09:00–09:30 Overview of the Anne and Joe Turner Institute and merit of a multidisciplinary one-stop-shop (Dan Turner)
- 09:30–10:00 Personalized medicine in IBD (Oren Ledder)
- 10:00–10:20 Case discussion (delegate; led by Esther Meyer)

#### 10:20–10:45 Morning tea and meet the team

- 10:45–11:10 How do we implement nutrition in IBD - the "Tasty & Healthy" approach (Lihi Godny)

#### 11:15–17:30 Five groups in rotating stations:

- Station #1 Interactive multidisciplinary CD case with an actor (Dan Turner, with dietician and surgeon)
- Station #2 Interactive multidisciplinary UC case with an actor (Oren Ledder & Eyal Shteyer (hepatologist) with PIBD nurse)
- Station #3 Hands-on, bowel, US and MRE - guided reading on real patients (Raffi Lev-Tzion & Elena Zharkov)
- Station #4 An interactive rolling complicated CD case (Richard Russell)
- Station #5 Experience REDCap data management and SPSS (Gili Focht & Noa Asayag)

11:15–13:15 1–2 of 5 rotating stations

#### 13:15–14:00 Lunch

14:00–16:00 3-4 of 5 rotating stations (cont.)

#### 16:00–16:30 Coffee break

- 16:30–17:30 5 of 5 rotating stations (cont)
- 17:30–18:30 6 Cases presented by delegates in 3 separate groups

18:30 **Departure to dinner overlooking the old city of Jerusalem**

## Wednesday (Jan 29th, 2020)

08:30–09:45 Complicated Crohn's Disease

- Live case – endoscopic balloon dilatation (Oren Ledder)
- Treatment of fistulizing and stenotic disease – two sides of the same coin:
  - The surgeon's perspective (Yaron Armon)
  - The medical perspective (Raffi Lev-Tzion)

09:45–10:30 Study design and how to write a research protocol (Dan Turner)

#### 10:30–11:00 Morning tea

- 11:00–12:15 Formulating a research question into a grant proposal (5 separate working groups)
- 12:15–13:00 Presentation of the protocols in 2 groups (Discussion led by Dan Turner and Richard Russell)

#### 13:00–14:00 Group photo and Lunch

- 14:00–15:00 "No cure? We have lots to offer!"
  - Coordinating a multi-disciplinary team (Anat Horesh)
  - In practice - Support interventions: What is there to offer? (Maya Mizrahi)
  - "Even better than drugs..." - non medical IBD interventions (Rinat Koren)
- 15:00–16:00 MRE for the non-radiologist: hands-on training in the computer training center (Ruth Cytter)

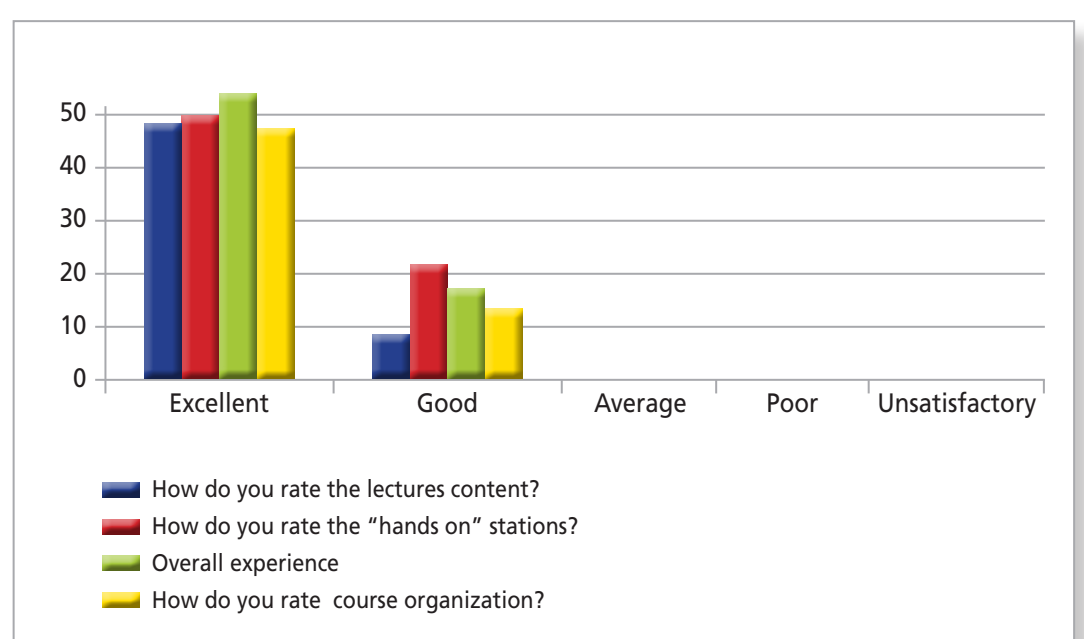

#### 16:00–16:30 Coffee break

- 16:30–17:15 Wrap-up: Taking home what we learnt to make the most of our treatment options (Richard Russell)

17:15–17:30 Farewell

## Here are some of last year's comments

- Great workshop. Really appreciate the hands on, practical approach. Great diversity!
- This was super! Very impressive by your IBD care (team, clinic etc) and also of your over-all "take care of patients" way!
- Excellent course – a fantastic experience – thank you!
- Thanks for all – is a life experience.
- Absolutely loved the experience. The team's passion & commitment to their patients was invigorating. Thank you so much!
- Excellent – the best and most practical mono-disease course I have been to.
- It is great pleasure to me to have this integrative multidisciplinary approach to IBD. Will help me a lot in my overall approach and treatment to patients. Thanks.
